

### **Felix André, Head of Affairs**

Hi, my name is Felix André and I'm the Head of Affairs. I am studying my second year of Mechanical Engineering with Industrial Economy and have the honor to be a part of HI TECH.

I am in charge of all the affairs that HI TECH has. That includes the relationships with our current and future sponsors, students and JTH. I am also the head of the annual career fair that we arrange once a year called HI WORK.

As Head of Affairs in HI TECH the first to think about is contact. You have a lot of meetings, talk with many kind of companies and always need to be ready.
