

Jenny Åkerlund, Head of HINT

Hi! My name is Jenny Åkerlund and I am Head of HINT, the international committee of HI TECH.

I am 24 years old and currently studying my second year of the Engineering programme with specialisation in Architecture. As Head of HINT my main assignment is to integrate the international students and plan activities such as the spring kickoff and International Week. Throughout the year I have to maintain regular contact with the International Office and the Student Union as well as the International Committees at the other Student Associations. I also work with the applications for the "study abroad points" together with the International Office. As Head of HINT, I get the amazing opportunity to get to know students from all around the world and to work together with them on events and activities.

If you are interested in joining HINT and to work with international events, then do not hesitate to come talk to me or just send us an email!
