Autumn 17

HI TECH

YOUR STUDENT ASSOCIATION AT JTH

Barely thirty years after the trams were removed from the streets of Jönköping there was a bunch of students who walked along the same streets.

The year was 1986! Movies like Top Gun & Police Academy 3 were released in theaters, Swedish government abolished the taxi monopoly and Swedish cows were allowed outside again for the first time since the Chernobyl accident. These students felt a burning enthusiasm to make the time in Jönköping more fun! They decided to start up a student association that initially mostly arranged various parties but has slowly evolved into what it is today.

Today we have about 3000 members, 150 people who are more or less responsible for any of the four different committees, 12 board members who each have their own unique responsibilities. Welcome to an association full of both old traditions and new thinking!

Welcome to HI TECH and welcome to JTH!

WELCOME...

...to the School of Engineering at Jönköping University! Your time here will have a great impact on the rest of your life and who you will become. You are the boss of your life and there are no limits, so go ahead, take the opportunity and excel, network, make new friends and have a blast!

My name is Victoria Claesson and I'm the president of HI TECH, your student association at the School of Engineering. We work with the students, helping them to have more influence on their education and develop it. During the year we also make sure that we have a spectra of different social activities to make it possible for you to have the best time of your life during your studies here.

Getting involved in our awesome association won't only make it possible for you to make friends for a lifetime and help your fellow students, it will also benefit your future professional life and make you stand out from the rest of your fellow graduates.

When exams are closing up and you spend almost every awake hour in your books, trust me there will be those kinds of hours, remember the great words from the one and only Barney Stinson;

“When I get sad, I stop being sad and be awesome instead.”

It works! Trust me, I'm an engineer!

Victoria Claesson, President of HI TECH

THE KICK OFF

The Kick off at Jönköping University is something above average, in fact it's two weeks of nothing but fun, excitement and pure happiness. These couple of weeks are for you to get to know the school, Jönköping and of course the other students and future classmates. To get a jump start we truly recommend you to participate as much as possible and enjoy these fantastic events ahead. Enjoy!

HI LIFE

HI LIFE is HI TECH:s committee that is responsible for the kick off so make sure to be extra nice to them.

NIGHT MISSIONS

At the start of the day each team gets their own campsite which you are going to decorate with your given theme for the night. As much comfort and imagination possible is always something great. It's common to have a large tent and somewhere nice to sit. Make sure you also dress up for the occasion! When the night comes HI LIFE appears with a long list of missions for you to complete throughout the evening.

AKADEMIEN

Our own night club where there can fit over 1000 students at the same time and where we'll spend our nights during the Kick-Off. Throughout the rest of the semester, Akademien will be open Wednesday nights; Always in your heart!

FADDERS

A shoulder to lean on in a new city!

There are a lot of things to keep track of when you're a new student. Where the next activity will be held, where are Juneporten and Vätterstranden located, how do you purchase patches and things belonging on your overall, or where are the best pizza places in town? The fadders exist for you so all of your questions can be answered. They know everything worth knowing and they work voluntarily so that you can experience the best Kick-Off ever.

Whether you have a question, an issue or simply want some guidance, the fadders are here for you, to make your Kick off the most enjoyable and excited as can be. They will protect you in the best way they can while showing you how to have a great time with students and future friends. The days during these couple of weeks will be intense but the fadders are here to make sure you can handle them and make this time the most memorable.

The fadders will be there for you during the kick-off no matter what! Simply your guidance and best friend during the most enjoyable days of your student life!

THE OVERALL LAW

- ACT (2016:511)

CHAPTER 2: PATCHES

2 § STUDENT ASSOCIATION PATCH

Your student association patch should be located on your right thigh.

3 § PROGRAM PATCH

Your program specific patch should be located on your left thigh.

4 § STUDENT ASSOCIATION LOGO

Your corresponding student associations logo located on the overall shall not be covered with patches or anything else.

CHAPTER 3: SPECIFIC REGULATIONS

5 § PROGRAM BAND

Your program band should be located on the left and right side of your overall.

- | | | |
|--|---|--|
|  Construction |  Computers |  Lighting Design |
|  Mechanical |  Logistics |  Furniture Design |
|  International Students | | |

6 § THE BOARD OF HI TECH

A HI TECH board member carries a gold-colored band on the inside of the legs of the overall. A board member also carries the prestigious “Board of HI TECH”-patch.

7 § HIKE

The HIKE-committee patch should be located on the right leg of the overall.

8 § HI LIFE

The tassel should sit on the left shoulder.

HI LIFE-committee patch should be placed above the student association patch.

Position within HI LIFE shall be visible on the collar.

HI LIFE” should be printed on the front of the left leg.

After completion of service, the front left leg and collar are marked with an X.

CHAPTER 4: CHANGING OF OVERALL PARTS

9 § OVERALL PARTS

You can trade parts of your overall freely except for the special regulations in 10§ and 11§.

10 § INTIMATE RELATIONSHIPS

A switched left leg means the person in question has engaged in intimate physical relations and exchanged bodily fluids with the former owner of the leg.

11 § ORAL EXCHANGE OF BODILY FLUIDS

If the right sleeve has been switched with another individual that indicates the person in question have had oral exchange of bodily fluids with the former owner of the sleeve.

CHAPTER 5: OTHER REGULATIONS

12 § CLEANING

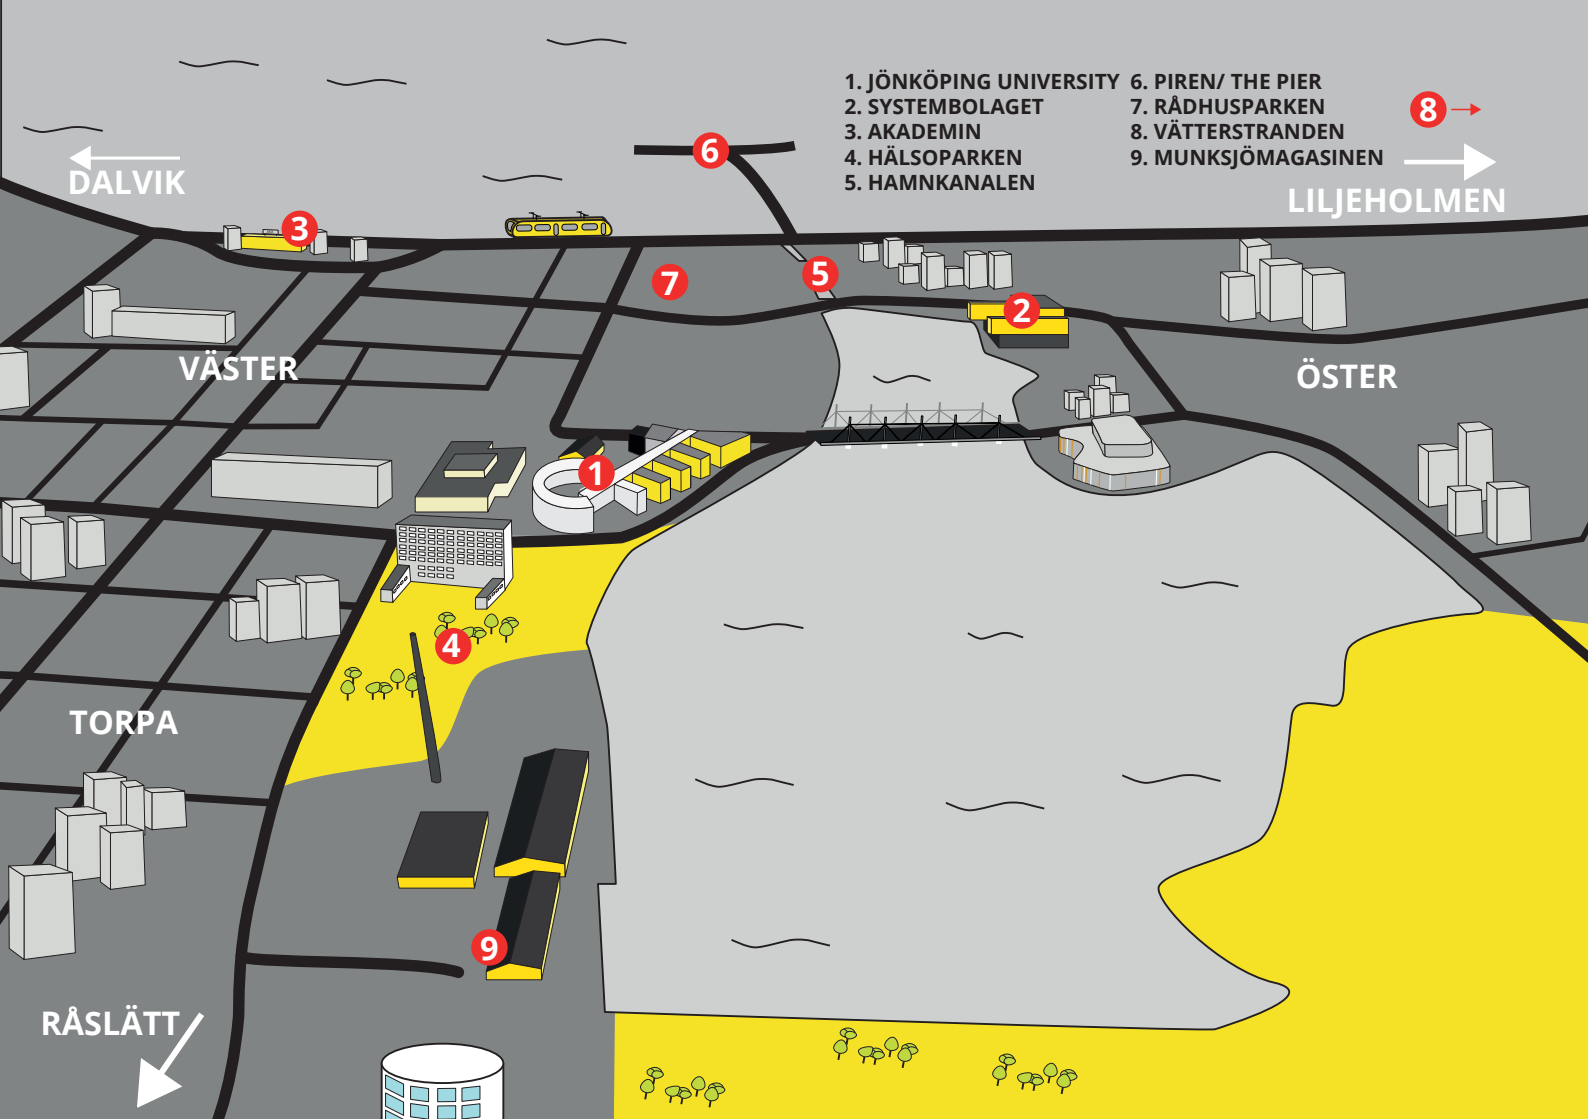

An overall may only be cleaned if the owner is located inside it.

13 § EQUIPMENT

An overall should be equipped with a student, Caps-towel and a bottle opener.

14 § WRITING ON OVERALLS

It is strictly forbidden to write on your own overall, but it's fair game (and encouraged) to write on anyone else's overall.

HI TECH

YOUR STUDENT ASSOCIATION

HI TECH is the student association at the School of Engineering that consists of committed students. We work and strive towards making your time as a student here in Jönköping the best time ever, not only during school but after hours as well. We work with everything from quality assuring the courses, arranging trips or parties and sittningar. HI TECH consists out of four committees and a board of eleven students that voluntarily work during their period of time they've been elected. The president of the board works fulltime, which means he/she does this for a living.

Visit our website for more information: www.hitech.nu
and dont forget our Facebook page: www.facebook.com/hitech

HOW CAN YOU MAKE A DIFFERENCE?

There are several ways for you as a student to get involved and make a difference for all the other students. In addition to applying for a board position there are other ways to get involved.

For example there are four committees in HI TECH were you can be a part of an amazing group of students.

HIKE is the social event committee of HI TECH. HIKE arranges trips, game nights, ski-trips and much more.

HI EDUCATION work with issues related to your education, our aim is for your education to be the best in Sweden.

HI LIFE's task is to bring the students at JTH together and have as much fun as possible outside of their studies. During the year we work at the student's nightclub, Akademien. Furthermore we organize social activities such as sittningar and CAPS.

HINT is the international committee of HI TECH that is responsible for issues concerning integration of international students and international events.

THE BOARD OF HI TECH

The Board of HI TECH includes twelve students working to make sure your time at The School of Engineering will be the best time of your life. To our aid we have our great committees and the Student Union.

Our goal is to improve your study time at JTH and raise the students voice and make changes. If you have any questions don't hesitate to ask the board members questions and if you have ideas of how we can improve JTH just tell us!

HOW TO MAKE A CHANGE

Every spring and autumn there is a biannual meeting where you as a student can make a difference by suggesting changes to the board of HI TECH. It's also at the biannual meeting where you can be a part of the HI TECH Board. More information can be found on our web pages: www.hitech.nu or www.facebook.com/hitech

HI LIFE

INGRID WADSKOG

DEAN OF JTH

This section is dedicated to a leading figure here at the School of Engineering in Jönköping, your own dean, Ingrid Wadskog.

Ingrids' words to the new students:

"I am so glad that you chose Jönköping University and School of Engineering (JTH) to be your place to study. We will do our very best to provide you with relevant courses, contacts with companies and international experiences. The rest is up to you. How you engage yourself, both in education and in social activities. Study, ask questions, meet new people, involve yourself in HI TECH and participate in events, and I can promise you this will be the time of your life."

HI TECH acknowledges and agrees with Ingrids' soothing words. It is no doubt a great way to get friends and contacts for life but also feel that you've contributed to something during your time at JTH.

Name: Ingrid Wadskog

Age: 44

Family: Husband Andreas and three children

Merits: Doctoral degree in Microbiology from Göteborg University, Programme manager, Research study advisor, Head of Industrial Engineering and Management department at JTH Dean of JTH since fall 2016.

Hobby: Besides taking my kids to different activities (soccer, floorball, gymnastics, triathlon, orchestra), when time permits I like to run, ski and play golf. I also play the cello.
